

Missouri Attorney General **CHRIS KOSTER**

Bridgeton Landfill Agreement Highlights

- Republic commits to concrete pipe removal and to permanently cap the smoldering landfill, including:
 - Permanent odor capture and control.
 - Oxygen starvation to assist in extinguishing smolder.
- Republic provides temporary housing assistance to residents near the landfill for the duration of work set to begin May 20 resulting in increased odor.
- Republic tests leachate daily for hazardous characteristics and properly disposes in compliance with the Missouri Hazardous Waste Management Law.
- Republic commits to containment measures to prevent migration beyond the neck into the West Lake Landfill.
- Republic pays state costs for comprehensive air monitoring and sampling, to occur daily, weekly, and as needed to ensure protection of public health and environment.
